

VEMULA CHARAN

📍 Hyderabad, Telangana, India — ✉ charan24092004@gmail.com — 📞 +91 6303815089

🌐 LinkedIn 🌐 Portfolio 🌐 GitHub

PROFESSIONAL SUMMARY

Motivated IT student with strong skills in full-scale development and Machine Learning. Proficient in the MERN stack, Java, and Python with hands-on project experience in scalable applications and ML-based systems. First place winner at Brooklyn Nine-Nine Hack Heist and Finalist of the FINOVA Hackathon (Top 5 of 800+ entries).

EDUCATION

2023 - present Btech(IT) at Manipal Institute of Technology, Manipal
2021 - 2023 Class 12th Board of Intermediate Education, Telangana
2021 Class 10th Board of Secondary Education, Telangana

RELEVANT COURSES

- Data Structures and Algorithms (DSA)
- Object Oriented Programming (OOP)
- Database Management System (DBMS)
- Operating Systems (OS)
- Computer Networks (CNW)

ACHIEVEMENTS & LEADERSHIP

- **HackWithInfy 2026 – Infosys Digital Specialist Engineer (PPO)** Apr 2026
 - Secured a Pre-Placement Offer (PPO) as a Digital Specialist Engineer (Trainee) through Infosys' national-level HackWithInfy 2026 by successfully clearing multiple coding rounds and the final interview.
- **1st Place Winner – Brooklyn Nine-Nine Hack Heist** Mar 2026
 - Secured 1st place in a hybrid algorithmic and CTF competition organized by HackerRank Campus Crew at MIT Manipal.
- **Best Contingent Award – Independence Day Parade 2025** AUG 2025
 - Represented MIT among 28 institutes, secured 1st place for outstanding performance and discipline.
- **Finalist – FINOVA Hackathon (Round 2)**
 - Built a functional AI-powered prototype; selected in top 5% from 800+ entries.

PROJECTS

- **AI-Powered AutoML Pipeline with Multi-Agent Validation** *Python, ML, NLP*
 - Built an NLP-based system to convert user prompts into structured ML tasks.
 - Implemented hybrid models using Sentence Transformers, Logistic Regression, and BERT.
 - Developed an inference engine with multi-intent detection and conflict handling.
- **PortPulse – ML-based Vessel Anomaly Detection** *Python — Computer Vision*
 - Designed a model to detect abnormal maritime patterns using AIS data.
 - Applied preprocessing, feature engineering and imbalance-aware evaluation metrics for accuracy.
- **Real Estate Database Management System** *SQL — DBMS*
 - Built normalized relational schemes and SQLqueries to manage property, customer records efficiently.

CERTIFICATIONS

- **Google AI Essentials** – Certified by Google (via Coursera)
 - Gained hands-on knowledge in AI concepts, prompt engineering, and practical AI tools.
 - Completed 5 structured modules with applied exercises.
- **Organizing Committee Member – Revels, Kalakrithi Club**
 - Contributed to organizing one of MIT's largest cultural festivals with high participant turnout.
 - Managed registrations and scheduling for multiple events involving 100+ participants.

SKILLS

- **Programming Languages:** Java, Python, C, SQL, JavaScript
- **Web Technologies:** MERN Stack, HTML, CSS, PHP, Vite
- **Databases:** MongoDB, SQL Plus, Relational Schema Design
- **ML & Data Science:** Supervised/Unsupervised ML, Computer Vision, NumPy, Pandas, Matplotlib, Seaborn
- **Tools & Concepts:** VS Code, Git, REST APIs, GitHub, OOP, VS 2022, PyCharm
